- Update on Mackerel and Herring
- Climate Change - What is Coming Your Way and Its Impact on Lobster
- Effect of Ocean Acidification on Atlantic Lobster
- Environmental Monitoring on Lobster Traps
- FSRS Nearshore Temperature Monitoring Project
- Understanding Lobster Population Connectivity
- C-Change ICURA

**Best Western Glengarry Hotel**  
150 Willow Street  
Truro, NS

The Fishermen and Scientists Research Society (FSRS) is holding its 19th Annual Conference on February 24 - 25, 2012.

The conference will include workshops on a wide variety of topics and a poster/information displays session.

Planned workshop topics range from the impact of climate change on lobster, to lobster population connectivity, status of mackerel and herring, and environmental monitoring.

The conference will also include the Scientific Program Committee Report and Workplan for 2012/2013, and the Annual General Meeting.

An informal reception is planned for the evening of February 24th and will include a Dutch Auction. The auction at last year's conference raised over \$1,000 for the FSRS. Have fun while supporting the worthwhile work of the Fishermen & Scientists Research Society.

**FSRS 19TH ANNUAL CONFERENCE**
